The Gamo Varmint Air Rifle is a .177 Cal pellet break barrel able to shoot up to 1250 fps using PBA Platinum pellets. This air rifle is ideal for pest control: nuisance animals such as mice, rats, birds and snakes.

Gamo Varmint 6110017154 Air Rifles .177 4x32 - amazon.com

very nice wood and metal finish. Quite accurate and good trigger at this price point. I have had poor luck with QB78's in the past (e.g. frost on the air chamber after 5 shots) however this current gun holds a charge very well and perhaps they have upgraded their quality control.If this level of

performance continues I would regard it as the best CO2 rifle available in this price range.
